

Ref No: SQ-R2006.1_0079

Qualification Report

for the equipment category

Process Control System Engineering (only E5)

This is to confirm that Holcim has evaluated

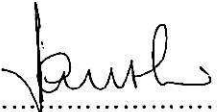

Technord Automation SA, Belgium

and that the supplier and the corresponding equipment was rated as

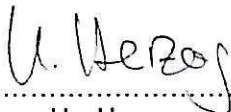

B, qualified with restriction

Issue date: August, 2006

Valid until: August, 2008

.....
Charles Hanslin,
Head of HGRS/CP-CS&S

.....
Urs Herzog,
Head of HGRS/CMS-ECT

The qualification is based on the standard corporate supplier qualification process of Holcim which evaluates the performance of the supplier and its products and services based on a predefined criteria catalog.

The meaning of the rating is described on the following page and the extent of possible restrictions or limitation are stipulated in the supplier specific Supplier Qualification Report.

Note that this and the related documentations including its content shall be for Holcim and the Supplier internal use only and not be used for promotional purposes of any kind by either party. The qualification does not imply any kind of preferential or exclusive status nor is it a guarantee whatsoever for the supplier to be taken into consideration for any further business. The qualification is valid until the indicated date but the validity and the rating may be changed at any time if special circumstances require Holcim to do so. The qualification is not subject to appeal.
